Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-27 are pending and have been examined.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 27 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant's original disclosure does not provide support for the new limitation, "executing an initial schedule on the plurality of heterogeneous computational elements" (claim 27). There is no indication an execution occurs of the initial schedule before the cost evaluation. Therefore, for the purpose of the below rejections, execution will not be interpreted as having weight.

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application

Art Unit: 2193

designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-3, 12 and 14-15 are rejected under 35 U.S.C. 102(e) as being anticipated by **Wuytack** et al. (USPN 6,421,809). Claims are rejected substantially the same as in Office Action mailed 05 November 2004 and are therefore not repeated.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4-10, 16-22 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Wuytack** et al. (USPN 6,421,809) in view of **Crawford, Jr**, et

al. (USPN 6,456,996). Claims are rejected substantially the same as in Office Action mailed 05 November 2004 and are therefore not repeated.

Claim 27

The limitations of claim 27 correspond to limitation found in claims 1-10, 12 and 14-22 and as such claim 27 is rejected in a corresponding manner.

Claims 11 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Wuytack** et al. (USPN 6,421,809) in view of **Subramanian**, et al. (US 2002/0024993). Claims are rejected substantially the same as in Office Action mailed 05 November 2004 and are therefore not repeated.

Claims 23-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Wuytack** et al. (USPN 6,421,809) in view of **Subramanian**, et al. (US 2002/0024993) in further view of **Crawford, Jr**, et al. (USPN 6,456,996). Claims are rejected substantially the same as in Office Action mailed 05 November 2004 and are therefore not repeated.

Response to Arguments

Applicant's arguments filed 07 February 2007 have been fully considered but they are not persuasive. Applicant argues **Wuytack** fails to disclose *heterogeneous computation units*. This is not persuasive as the cited prior art

mentions optimizing memory and architecture (Applicant's Remarks, page 9, last paragraph; **Wuytack**: column 6, line 39 to column 7, line 12). The memories along have differing size and interconnection patterns. Therefore, the cited prior art discloses "heterogeneous". The rejections are maintained as indicated.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
